

Shaft Adapters

Step-Down Adapters

Make Shaft Smaller

Bore Sizes: $\frac{3}{4}$ " through $1 \frac{1}{2}$ "
Shaft Sizes: $\frac{1}{2}$ " through $1 \frac{1}{4}$ "

Step-Up Adapters

Make Shaft Larger

Bore Sizes: $\frac{1}{2}$ " through $1 \frac{1}{4}$ "
Shaft Sizes: $\frac{3}{4}$ " through $1 \frac{1}{2}$ "

Purpose

In order to join two shafts of differing sizes without replacing shafting, shaft adapters repair, alter, extend, increase, or decrease the current shaft. They are easily installed and compatible with all standard round shafts.

Solve

- ✓ Quick and cost-effective
- ✓ Eliminates need for shaft replacement

Customize

- ✓ Shaft end is fully machinable
- ✓ Keyway may be added to coupling or shaft end

Design

- ✓ High torque capability
- ✓ Available in steel with black oxide finish
- ✓ Recessed screws allow smooth OD and do not mar shaft
